PROFESSIONAL SUMMARY

Final-year Computer Science student with strong fundamentals in data structures, algorithms, and full-stack development. Built multiple end-to-end web applications and eager to contribute as a Software Development Engineer.

SKILLS

Languages: Java, JavaScript, Python, C++

Web: React, Node.js, Express, HTML/CSS

Databases: MySQL, MongoDB

Tools: Git, Postman, VS Code, Docker (basic)

WORK EXPERIENCE

Software Development Intern — Brightwave Labs

Jan 2026 – Apr 2026 | Remote

- Developed REST APIs for an internal inventory tool using Node.js and Express, used by 40+ employees
- Fixed 25+ bugs and improved test coverage from 40% to 70% using Jest
- Collaborated with a 4-member team in an Agile sprint workflow

Web Development Intern — CodeNest Technologies

May 2025 – Jul 2025 | Remote

- Built responsive landing pages for 3 client websites using React and Tailwind CSS
- Reduced page load time by 30% through image optimization and lazy loading

PROJECTS

- CampusConnect — Full-stack student networking platform (MERN stack) with real-time chat using Socket.io
- AlgoViz — Interactive visualizer for sorting and graph algorithms built with React and D3.js
- SmartExpense — Expense tracker Android app with budget alerts, built using Java and SQLite

EDUCATION

B.Tech in Computer Science Engineering — NIT Jamshedpur, Expected 2027 (CGPA: 8.7/10)

CERTIFICATIONS

- Data Structures and Algorithms — Coursera (2025)
- AWS Cloud Practitioner Essentials (2026)
